

FOR IMMEDIATE RELEASE**Terumo Medical Employs FaciliWorks® CMMS Software; CMMS for FDA CFR 21 Part 11 Compliance for Medical Device Manufacturing****Integrated CMMS / EAM Solution designed for FDA regulatory requirements within medical device manufacturing**

Phoenix, AZ – August 2, 2011 – CyberMetrics Corporation announces Terumo Medical's deployment of FaciliWorks CMMS software into all facilities, fulfilling their requirement for CMMS FDA 21 CFR Part 11 compliance. FaciliWorks CMMS enables medical device manufacturers such as Terumo to employ a complete computerized work order and preventative maintenance system while simultaneously upholding the regulatory requirements of FDA 21 CFR Part 11 by way of:

- FaciliWorks CMMS third-party certified compliance with FDA 21 CFR Part 11
- Enhanced password and user security credential handling
- Electronic signature-based work order and preventive maintenance handling
- Advanced audit trail maintains a comprehensive history of all transactions within FaciliWorks

“FaciliWorks is the ideal CMMS package for Terumo,” says Dave Banerjea, President and CEO of CyberMetrics. “Working with Terumo Medical, the FDA and the medical device community ensures that FaciliWorks CMMS continues to be the best solution for keeping operations running smoothly while enforcing 21 CFR Part 11 and other regulatory compliance.”

About CyberMetrics:

Founded in 1988, CyberMetrics Corporation is a leading provider of maintenance management, calibration management and supplier QA software solutions that are scalable to meet the demands of the largest and smallest of companies and are easy to implement, manage and use. FaciliWorks is a CyberMetrics flagship product, serving a diverse FDA-regulated customer base including Fortune 1000 companies within medical device manufacturing, pharmaceuticals, food and beverage and health services.
