

# Two Powerful Products. One Ground-breaking System.

Manage Your Maintenance and Calibrations with FaciliWorks 8i Calibration.

## Introducing FaciliWorks 8i Calibration

which combines all of the benefits of FaciliWorks 8i with the power of our GAGetrak® software, the world's leading calibration management software, to deliver an all-in-one enterprise asset management server solution.

In addition to the asset management functions of FaciliWorks, 8i Calibration allows for gage entry, calibration scheduling, tracking of gage locations, retrieval of calibration records, production of calibration certificates and the ability to track the as-found condition of gages.

You can schedule a PM and a calibration on the same asset, assign a gage ID as a standard and attach calibration certificates to procedure records. And, because calibration and asset management are combined into one system, our 8i Calibration Validation Kit meets requirements for single-track FDA validation.

Contact us today for a web demonstration and we'll show you how FaciliWorks 8i Calibration can work for you.
