

# FaciliWorks® Desktop 8 Product Options

Maintenance Management Software

## FaciliWorks PDA

Perform maintenance and inventory in the field with your PDA handheld computer, then transfer the data back to your FaciliWorks database.

You can even add a built-in laser bar code reader to scan labels printed by our Maintenance Label Kit. It's a great way to save data entry time and cut down on costly errors.

## FaciliWorks Maintenance Label Kit

Print durable, laminated, bar-coded labels directly from FaciliWorks. The small-footprint Brother printer comes with cables, design software and everything else you'll need to get started.

## Total Maintenance Solution (TMS and TMS+)

FaciliWorks TMS includes all the tools you need to automate your maintenance department at a special package price.

FaciliWorks TMS includes:

- FaciliWorks Desktop CMMS Software
- Maintenance Label Kit
- SafetyPro

## Improve efficiency even more with TMS+!

TMS+ includes the contents of TMS plus the FaciliWorks PDA.

## Professional Services

Whether FaciliWorks is your first CMMS software solution or you're switching from another application, the process is easy. We offer a variety of comprehensive professional services including consultation, product implementation, data collection and data import services to help you get started quickly and to assure that our software solutions maximize your productivity.

## TaskPro and Safety Pro

TaskPro is a fully customizable, comprehensive database of maintenance procedures covering 250 different topics related to facility and equipment maintenance and easily installs directly into your FaciliWorks database.

SafetyPro is a database of step-by-step safety checklists to assist with OSHA compliance. It covers 40 different topics including fire protection, stairs and stairways, hand tools and just about anything else you might need.

## Training

Three convenient and effective training options are available to fit your needs: personalized web training, two-day regional training and on-site training. Our talented instructors will guide you through the planning, preparation, setup and successful operation of FaciliWorks. You'll learn how to save time, avoid common mistakes and get the most out of your software.

## Validation Kit

The Validation Kit establishes and documents FDA 21 CFR Part 11 validation of your FaciliWorks software. FaciliWorks simplifies the validation process with its backup/restore feature, built-in referential integrity checks, field-level input validation, standard reports and a sample validation database and validation guide for end-user testing and verification.
